MAGNETIC RESONANCE IMAGING REPORT

Patient: Marisol Vega **DOB:** 07/19/1988

Exam: MRI cervical spine without contrast **Exam date:** Feb 17, 2026

Referring physician: Daniel Okafor, MD **Indication:** neck pain radiating to the left arm after a motor vehicle collision on 02/03/2026.

Findings

C4-C5: mild disc bulge without canal stenosis.
C5-C6: broad-based posterior disc protrusion with mild left neural foraminal narrowing, contacting the exiting left C6 nerve root.
C6-C7: no significant disc abnormality.
Vertebral body heights are maintained. No fracture. Cord signal is normal.

Impression

1. C5-C6 disc protrusion with mild left foraminal narrowing (M50.222).
2. Mild C4-C5 disc bulge.

Interpreted by: Priya Raman, MD, Radiologist. Signed Feb 17, 2026.
